Lutherans to Celebrate.

On Sunday next services commemorative of the 400th anniversary of Martin Luther's catechisms will be held in Edmonton under the auspices of the Lutheran church (Missouri Synod).

Rev R. F. Holtzman will preach at St. Peter's church. At Grace church the pulpit will be occupied by Rev H. Kuring. Both services at 11 a.m.

At 2 p.m. a special service will be held in Memorial hall by Rev Wm Grother of Milwaukee, Wis.

A chorus of 300 children will take part in the celebration. All congregations of Alberta and B. C. belonging to the Missouri Synod have been invited, and a large gathering is expected.

Let Your Tail-light be Burning

Motorists are beginning to realise that the new narrow roadway on the Baseline does not allow room for motorists who stop on the highway to make necessary repairs.

Whilst the autos were rushing east, from the Beaches on Sunday evening, an Edmontonian driving car No. 71151 stopped to mend a flat, three miles east of Stony Plain. He hadn't been long on the job when car No. 76050, driven by A. Hurrybird, struck the standing car, driving the latter car ahead some 20 feet and forging ahead himself some 40 feet farther, coming to a standstill with a few spokes left on his right rear wheel.

Acourse, an argument started as to whom was at fault, but it is likely both will appear in the local Court—one for having no light on his rear and the other for speeding.

Death of Mrs. Ashmead

The death occurred Saturday morning last of an old and respected resident of the Blueberry district in the person of Mrs. Lena Helen Ashmead, beloved wife of Mr. George Rufus Ashmead. Deceased was in her 64th year, and had been suffering for some time from heart trouble.

The funeral took place Saturday afternoon, services at the residence being conducted by Rev C. H. Reppert. Interment was made in the churchyard of Glory Hills Reformed Church.

The remains were followed to the graveyard by a large number of friends and acquaintances of deceased, testifying to the high esteem in which she was held.

Deceased is survived by her husband; three daughters—Mrs. H. Bain of Grand Prairie, Mrs. Barry of Halkirk, Mrs. Francis Lamarche of Hayter; six sons—Paul, in California; Joseph, at Alliance; George, Clarence, Glenn and Thomas, all in Stony Plain district.

When Co-operation Should Prevail

The 1929 crop season in Western Canada would seem to present a rare opportunity for a further development of that spirit of co-operation which has been such a notable and satisfactory feature of Western economic history during the last twenty-five years. Not only is there now opportunity for such further development, but the existing situation undoubtedly calls for the practice to the fullest extent of the principle of co-operation to which tens of thousands of our Western people have devoted their allegiance.

While it may yet be early to predict just what the outcome of this year's harvest operations in Manitoba, Saskatchewan and Alberta will disclose, it is now well known that in quantity of grain production there will be an enormous decline as compared with 1928. The quality may be higher, and prices substantially better, and in the final result the amount of money paid to Western grain growers may not fall so greatly below last year's figures, as many have feared, and as seemed altogether probable.

But the fact remains that the distribution of crop money will not be nearly so general as in the last few years. Some sections of the West, and the farmers resident therein, will receive more money for their labor than they did a year ago. But, on the other hand, other sections will receive very considerably less, and quite a number of farmers who were forced to plough down their drought-stricken fields will receive nothing at all.

Another serious feature of this year's operations is that, whereas in other years of shortage in grain crops, the man engaged in mixed farming had his cattle and dairy products to fall back upon, this year he finds himself in an even more serious predicament than the all-grain farmer, because in the sections most seriously affected the drought has been so prolonged, and the weather so hot, that the supply of feed is dangerously short.

As a result of the heavy decrease in volume of grain production it has been decided not to run the usual harvesters' excursions from Eastern Canada, nor to mention from Great Britain, in the belief that the West itself can supply all the harvest hands required. The introduction of the Combine has operated to reduce the number of harvesters required, while the growing industrialism of the West provides a large number of men who can be drafted to the harvest fields in the fall months. Again, this year, from those sections of partial crop failure, farmers and their sons can be drafted to those sections where help is needed. Also, because of the drop in volume of grain to be moved, the railways will not require as many men as in former years.

Here is where the opportunity for real co-operation presents itself. Farmers requiring harvest help should give first preference to other farmers and their sons who have suffered crop loss. Farmers requiring help, and farmers anxious to secure work, should both lose no time in making their wants known to the nearest Government Employment Office, which will be the agency to bring the two together and thus render valuable service to both.

In like manner farmers having a surplus of feed, and those others who are in dire need of feed, should both make their situation known to their Provincial Departments of Agriculture. It will be to their mutual advantage.

In the third place, many farmers will not even get their seed back this year, and will require to purchase next spring's requirements; on the other hand, many farmers will have an excellent sample of wheat for sale. Here, too, both should make report to their Department of Agriculture. Seed grain can, by such an arrangement, be moved from one district to another at a minimum of expense.

In every community the spirit of true co-operation should prevail. The man who is fortunate this year should find real satisfaction in extending a helping hand to his less fortunate fellow-farmer. No one can tell, but the situation may be exactly reversed in another year. This kind of co-operation may not be quite so spectacular as the big Wheat Pools, but it is equally important, and it is the spirit which will make the Pools strong and permanent and a greater success than has yet been attained. It is the spirit of the West. Cultivate it, encourage it, develop it all along the line.

Wainwright Oil Wells

There are sixteen wells in the Wainwright and Ribstone oil fields at present, of which six are producing to some extent. The wells vary in depth from 200 to 3,489 feet. Preparations are in process for drilling 23 other wells in these districts.

Canadian-American Airways

The first air-line connecting the cities of Western Canada and the United States was inaugurated recently at Winnipeg, when the 'plane of the newly organized Canadian-American Airways landed and was christened the "City of Winnipeg."

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali, which neutralizes acids. But don't use crude helps. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

New Policy For Fur Traders

Will Establish Experimental Fur Farm At Northern Posts

Northern Traders Limited, operating many fur posts in the Mackenzie River District, has announced a new policy in connection with an expansion programme—at each of the posts the company has made arrangements for the establishment of an experimental fur farm. These will be conducted along scientific lines with the animals being raised in their natural habitat. Foxes, of all sorts, mink, beaver, marten, and badger will be among the first to receive attention.

RHEUMATIC PAINS

Cannot Be Rubbed Out — The Trouble Must Be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but after all the rubbing the pain remained. This blood and rheumatism come together, and if they are properly treated with Dr. Williams' Pink Pills, this blood, and this blood is something that can be corrected, so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the blood is built up, and when the poisons in the blood are overcome and driven out, rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Nova Scotia, who says: "For some years I have been badly troubled with rheumatism that I could hardly walk and suffered great pain. I had used almost every remedy but did not get much relief. Then I decided to try Dr. Williams' Pink Pills and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Should Be Useful

If beef production is to remain a major branch of agriculture in Canada, it must be stimulated and the artificial obstacles to its progress removed. The new Canadian Council of Beef Producers provides a medium through which much self work may be done, and with 1,000,000 head to market each year, producers should be glad that some organization is prepared to fight their battles—Farmers Advocate.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes? It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Lethbridge Is Growing

According to Henderson's Directory, Lethbridge now has a population of 14,052, having grown by 2,052 in the past two years, or at the rate of 1,000 annually.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

Co-Operative Poultry Marketing

Manitoba Association Now Has a Membership Of Over 12,000 Farmers

When the Manitoba Co-Operative Marketing Association, Limited, began operation in 1922, the first year's shipments totalled five cars of dressed poultry, 10 cars of live poultry, and 125 cars of eggs to markets in Eastern Canada and the United States. The organization now has a membership of over 12,000 farmers and their wives throughout the Province of Manitoba.

Art Is Universal

Sir Harry Lauder Favorite With People Of All Nations

Sir Harry Lauder, associated with what is declared to be the greatest company of international artists ever offered in conjunction with the famous singing comedian, comes to the Grand Theatre, Regina, Sept. 5 and 6, with matinee on Sept. 6th.

Sir Harry's art is so universal that in the Far East as well as in other sections of the world comprehended in his travels, he attracts thousands of auditors who do not understand the English language to say nothing of the h-r-r-ing Scottish dialect, and yet seem to enjoy the diversified Lauder programme to the limit. In Western United States and Canada, Lauder often forms a considerable element in his audiences.

As Lauder is unlike any other entertainer, it is impossible to compare him with any of the other famous amusement stars. His songs are his own, and his method of presenting them is peculiarly Lauderesque.

This season Lauder comes with a repertoire of new songs, which he will offer in addition to the best and most popular of his old favorites, with special scenic settings to fit each characterization. Some of the newer songs to be given have been popular hits. They include "I'm Lookin' For a Lass That Love Me," "Till' Boos O' the Hoosie," "Sue Maclean," and others equally characteristic.

Are Easily Satisfied

Natives Of Rennell Island Accept Fish Hooks For Day's Work

An island on which an able-bodied young man is satisfied with five fish hooks for a day's work and a large axe for a fortnight's work, is described in a Colonial Report just issued. This spot is Rennell Island, one of the least known of the Pacific Islands, which was recently the subject of a geological survey. The inhabitants of the island are estimated to number at least 700 and are still untouched by white influence. They are described as "abjectly poor" and practically vegetarians.

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Agent—I forgot to mention that in this country house you're buying there are two very old stained glass windows.

Mr. Newgate—That won't matter. If they're stained too bad to be cleaned I can put in some new ones.

Prison Chaplain (to sick inmate):—Don't lose courage, my good man; everything comes to a conclusion—today we are here and tomorrow we are gone.

Inmate:—Yes, you, perhaps, but not me. I'm here for ten years.

Fraser River Salmon

Salmon Pack Is Showing Better Promise Than Any Year Since 1917

This year the Fraser River is showing splendid promise of coming back as a highly valuable sockeye stream, the pack showing more promise to date this year than any year since 1917, according to the Financial News of Western Canada, which goes on to say, "Steadily the stream has been replenished after the disastrous blocking of Hell's Gate about 15 years ago. Not only are the fish running in quantities larger than for 12 years but they are running earlier."

Community Beautiful Association Offers Prizes For Best Efforts To Improve Farm Cottages

As part of a Dominion wide plan to farm owners and others, the benefits accruing from the brightening up and modernizing of the farm home and surroundings, a novel demonstration is being arranged by the Canadian Home and Community Beautiful Association, according to Lee B. Judson, managing director of the Association, Montreal.

The magical transformation of a bare farm cottage and its immediate surroundings into a thing of beauty, in a demonstration lasting only two hours, is the novel event planned to take place before the end of the month, and to which the Rt. Hon. J. T. Thomas, Lord Privy Seal and Minister of Employment in the British Cabinet, has been invited by the Association.

The scene will be eight miles from London, Ontario, at the location of one of a hundred and fifty cottages built throughout Canada by the Department of Colonization and Development of the Canadian Pacific Railway, under an agreement with the Overseas Settlement Committee of the British Government. The London Chamber of Commerce is collaborating with the Canadian Home and Community Beautiful Association in the latter's arrangements to dramatize, as Mr. Judson calls it, the "Canadian Clean Up, Fix Up, and Keep It Up" idea on the farm.

As part of the demonstration the Rt. Hon. Mr. Thomas will be asked to apply part of the first coat of paint to the cottage exterior from automatic spraying equipment. Simultaneously a crew of paper hangers will be busy on the inside. Shrubs will be planted near the entrance to the cottage. Window boxes of a type, which a farmer can easily make, will be adjusted, and the whole effect will be to work a remarkable transformation before the eyes of the official committee and spectators, in two hours or less.

"Demonstrations, such as the one arranged for," said Mr. Judson, in an interview, "are not entirely new, but this one is unique in that the sponsors will comprise newspaper and moving picture representatives, provincial, agriculture, trade, civic, chambers of commerce, British Government and Canadian Pacific Colonization officials."

The cottages built under arrangement between the Canadian Pacific and the Overseas Settlement Committee, are pre-eminent in the opportunity afforded in the important mission of illustrating the idea of the brightening up of the farm and the consequent enhancement of the farm morale. With this as a nucleus the Canadian Home and Community Beautiful Association hopes to influence more owners of farms throughout the Dominion to make their buildings more presentable. Through more colorful surroundings and better housing methods, living conditions on the farm will not only be made more attractive to Britishers who come to the Dominion to take up farming, but the principles advocated by the Association will help the farm owner to cut down that enormous depreciation which follows when buildings are permitted to deteriorate.

There are thousands of home owners, not only on farms, but in towns and cities of Canada, who would find the greatest benefits in the modernizing of their buildings, whether it be through merely freshening up of an old place with paint

or by means of alterations. Many people think that such improvements are not for them, that modernizing is too complicated or costs a great deal. And so it is the purpose of the Canadian Home and Community Beautiful Association, working with the Chambers of Commerce and Improvement Associations over all the Dominion to demonstrate how the advantageous results can be obtained, and then advise the farm owner regarding the availability of necessary material and equipment to do the work, costs and other details. This in a way may be looked upon as simply augmenting the fine work which governmental and other agencies have done, but we are in a position to co-ordinate many factors with the one end in view.

"We were not so long ago," concluded Mr. Judson, "that you could only interest the average farmer by talking very frankly and emphatically about increasing the life of his buildings and equipment by modern 'give the surface' methods. All references to beautifying alarmed him because it suggested extravagance. This is no longer true because through such educational movements as our own, it is realized that the brightening up and proper maintenance of the farm home and buildings increases the property value, and today with so many visitors from other countries travelling through the Dominion, the effect of more attention bestowed on farm buildings creates a very desirable impression."

It is understood that the Canadian Home and Community Beautiful Association will offer several prizes in the near future for the best efforts at improvement made by the occupants of farm cottages in various parts of the Dominion.

Strawberries For England

Trial Shipment Of Treated Fruit Sent From Victoria

A trial shipment to England of five barrels of strawberries, which had been given the sulphur dioxide treatment, has been made by growers at Gordon Head, Vancouver Island. At first local customs officials objected to giving clearance to the berries on the ground that the use of chemicals would bar their entry as foodstuffs. It was, however, explained that this treatment was largely used in the Old Country as a temporary way of preserving berries until they were jamed, the chemical being drawn off and the berries restored to their natural appearance in the jamming process. Clearance was accordingly given after the matter had been referred to Ottawa, and shipment was made from Victoria. Each barrel containing approximately 300 lbs. of berries.

Drought In Argentina

Much Anxiety Felt By Grain and Cattle Traders

Canadian farmers are not the only ones who are experiencing anxious times in connection with the prolonged spell of dry weather. According to reports received by the Department of Trade and Commerce, Canada's chief competitor in the world wheat markets, Argentina, has also been experiencing a prolonged drought, and much anxiety is felt by the grain and cattle traders. Not only is pasture in that country threatened, but the work of ploughing and sowing for next year's major crop is held back by the hard state of the soil. In addition, wheat prices are below normal remunerative prices to the farmers.

A Rockerless Rocking Chair

A rockerless rocking chair has been invented by a Chicago man. It cannot "creak" on highly waxed floors, nor tip over, nor wear out carpets, nor rock on a dog's tail when the family pup chooses to lie close to his master. The inventor claims: "The chair base stands squarely on the floor, and the seat is attached to the base by a heavy, solid steel convolute spring on each side to give a smooth, easy rocking motion."

Won Rose Trophy

Judged among thousands of blooms at the Rose Society of Ontario show, held recently at the Royal York Hotel, Toronto, the above "Gloire de Ch. Guinotette" was awarded the Challenge Trophy as best rose exhibited. It was raised by Mrs. R. W. Dixon, of Toronto, in an outdoor garden. The roses on exhibit ranged from pure white of large and small dimensions to the vivid red of American Beauties, making the ballroom at the Royal York a blaze of perfumed color. There was a record number of entries this year.

Sheep For Manitoba Farms

Movement Is Started To Build Up Numerous Flocks In the Province

A movement to place sheep on Manitoba farms is now under way to a good start under distinguished patronage. The Manitoba Livestock Credit Company Limited, (which is not a commercial concern in the ordinary sense), purposes to distribute 7,000 Rambouillet ewes and 3,000 cross-breeds this season, as a start, towards the building up of numerous flocks in the province. Sheep will be sold only to farmers whose applications are approved by a committee formed for that purpose.

Don't worry if your job is small, and your rewards are few. Remember that the mighty oak was once a nut like you.

No More Open End

This is the east end of the Trans-Canada going west. The Canadian Pacific has abolished the open end and substituted a villa-gated solarium. In addition, the new cars, which are given over to the public in entirety, contain two shower-baths, a ladies' lounge, a smoking-room and an observation-lounge. There is a buffet too. The bathrooms are in green tile, the upholstery in tapestries and soft coloured leathers.

Believes Purchasing Power Of Western Canada Farmers Will Be Unimpaired By Light Crop

The Bacon Hog and Grading

Standardization Of Hogs Necessary Step To Development Of Bacon Hog Business

The more the producer of bacon hogs knows about hogs, and the requirements of the market to which he is shipping, the greater will be the satisfaction and the profits derived from the business.

The standardization of hogs was a necessary and logical step in the further development of the bacon business, but hogs cannot be bred and grown to a standard type unless the producer has a thorough knowledge of the requirements of the standard.

For this reason a handbook on the "Bacon Hog and Hog Grading" was published by the Federal Department of Agriculture, and quite recently a revised edition of this pamphlet has been printed.

The reasons for producing a bacon hog are outlined in this pamphlet, also a description of the bacon hog, the breeds of hogs with illustrations, the official hog grades and grading regulations, and the necessity for grading. In fact, all the information needed by the producer in order to enable him to fill market requirements no matter how discriminating they may be.

All breeders of hogs should secure this pamphlet from the Publications Branch, Department of Agriculture, Ottawa, and if there is any further information desired the hog graders at the stock yards, the live stock promoters, or the Dominion Live Stock Branch, Ottawa, will be glad to answer enquiries.

Enlarged Grain Elevator

Building At Vulcan Brings Capacity Up To 90,000 Bushels

The town of Vulcan, in southern Alberta, which has won a name for itself by extensive shipments of grain, is having one of its nine elevators enlarged. The new building will increase the capacity by some 30,000 bushels, making the total 90,000 bushels. The grain handling facilities will be improved to increase speed and capacity, and electric equipment will be installed to furnish power.

The male has one advantage. When the heat becomes unbearable, he has something to take off.

That the purchasing power of the farmers of Western Canada will be at least as great after the present crop is harvested as it has been during the past year, is the considered opinion of C. W. Peterson, of Calgary. Mr. Peterson is well known in Eastern Canada as an expert authority of Western Canadian conditions and his analysis of the situation as given below is of importance to the business interests of the country.

Mr. Peterson says:

"Estimating yields in seasons such as this, when the contrast between good and poor farming is so enormous, is, indeed, guess-work. In Southern Alberta, excellent winter wheat yields and the effect of irrigation development are important factors. It is, however, absolutely safe to assume that yields will easily exceed the lowest average yield for the past 25 years of 11 bushels per acre, which would total 265,000,000."

"A comparison of probable yield with last year is instructive."

"The 1928 prairie wheat crop averaged 21.4 bushels per acre. The average price realized did not exceed 98 cents per bushel at Fort William, netting 85 cents. With eleven bushels average in 1929 of No. 2 Northern, it will at present prices net the farmer \$1.56. His average acre receipts for 1928, were \$18.27, from which deduct cost of the harvesting and hauling of the excess 10½ bushels over 1929 yield, at least, 16 cents per bushel, or \$1.68, making net price realized per acre \$16.59, as compared with \$16.45 for the smaller crop of 1929 of higher quality, higher price and smaller handling cost. From a standpoint of farm purchasing power, it seems about as broad as it is long, at the very lowest estimate."

The Mystery Of Sleep

One Of Puzzling Questions Science Is Unable To Solve

Human beings are said by a physician to be divided into two classes, those who say they sleep like logs, and those who never get a wink, and seem rather proud to tell you about it. Actually both are wrong. Those who complain that they spend night after night just lying awake prove they are romancing by the mere fact that they are alive to tell the tale. While we sleep the wear and tear in our bodies is made good; without it we die. According to a scientist who expressed his theories recently, the soundest sleeper wakes up between thirty and forty times a night, without remembering it—so that no one "sleeps like a log." As a rule, women sleep more peacefully than men. This question of slumber is one of the most baffling which science has to solve. No one has yet discovered why we fall asleep. Some change must occur in our body, just as a motor-engine will only stop when you switch off or something goes wrong.

Made To Last

When the Romans made shoes they made them to last. In the course of excavating the foundation for the new Bank of England, several soles of Roman shoes were unearthed, one of which distinctly bore the seal of a Roman eagle. Three thicknesses of leather were held together by copper rivets. They were in fair state of preservation, even though they are estimated to be more than 2,000 years old.

In Japan automobiles have to be illuminated inside as well as outside at sunset.

"You rogue! You haven't cleaned your teeth."—Lustige Baenner, Berlin.

"So you are an orphan, Johanna? Your father died before you were born?"

"Yes, Professor."

"And did your mother die before your father?"—The Roly Hald Times, Gothenburg.

WORLD HAPPENINGS BRIEFLY TOLD

"Lord Baden-Powell of Gilwell and Essex" is the title taken by Sir Robert Baden-Powell, founder and chief of the Boy Scout movement.

Control of food prices in Britain is likely to become a matter for legislation, when parliament re-assembles.

A recent report issued by the Immigration office at Sault Ste. Marie, shows that 12,190 people entered Canada from the United States at this point during June.

Peru has ended its long absence from participation in the affairs of the League of Nations. Decision has been made to resume full co-operation in all activities.

Sir Horace Plunkett, veteran Irish statesman, and bachelor, is learning to fly at the age of 75 years. He is taking lessons at the Brooklands air-drome in Surrey, England, and is keen as a boy.

Two Western Canada candidates were successful in the primary examinations for the fellowship of the Royal College of Surgeons, of England. Tests were held in Toronto for the first time in Canada.

Setting a record for all time 121 deaths required a coroner's investigation in Toronto during July. Of these, 39 met violent deaths through industrial mishaps, motor crashes and other accidents. Suicides and sudden seizures took large tolls.

You can rent an aeroplane at Kansas City, Missouri and fly it yourself if you have a pilot's licence. Saunders' Fly-it-yourself Company, has been formed with 200 sport planes. The rental charge is \$15 and \$20 an hour.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Any first-class watchmaker can deliver selections from his own works.

Minard's Liniment for aching joints.

Babies and pianos cause a lot of trouble because people refuse to let them alone.

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use Dr. Fowler's Wild Strawberry."

On this day his bowels had moved twenty-three times in the previous four days checked it.

A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours.

"We both always keep a bottle of Dr. Fowler's handy at all times. This medicine has been on the market for over 80 years, put up only by The T. Milburn Co., Ltd., Toronto, Ont."

W. N. U. 1799

Start Tour of World

Three Young Women Plan Trip To Remote Places

Arrayed in trim khaki colored breeches and shirts, leather puttees and caps with badges on them, but also wearing lip rouge so they won't be mistaken for motor cycle cops, three young women have set out from New York in a light motor truck to "go places and see things" in remote corners of the earth.

They are heading for Alaska; the party consists of Baroness Christa Von Brandenstein; a movie actress, Miss Nada De Varum, and a girl reporter, Miss Margaret D'Angelo, Ottawa, Ont.

They're going to all the remote places they can find—partly, Miss De Varum confessed, in answer to a masculine challenge that women can't do that sort of thing; and partly on the theory, that, being more patient and painstaking than men, they'll find out a lot of "dope" that the male explorers passed up.

"We're going as far north in Alaska as we can in the car. Then we hope to get an aeroplane ride and after that dog teams until we get away up where no white women have been before."

"And after that we're going to the Gobi desert, the wilds of Australia, Iceland and, oh, lots of places. We expect to circle the globe and get back in about three years."

PARIS COTTON FROCK

It is quite possible to appear smart, dainty and comfortable this season, because Paris decrees the sheer printed cottons are the newest choice for summery wear. Style No. 562 is strikingly effective in printed cotton voile. It is in flattering capucine tones which enhances the charm of the sun-tan complexion. The applied yoke of bodice which boasts of modern influence, is in plain voile in blending tone which appears again in circular inset of skirt. The hip-line is given a swathed effect through drapes of skirt. It is a fetching dress for town or resort. It comes in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust. Printed lawn, sheer linen in pastel or print, flowered chamois, shantung, printed rajah silk, crepe de chine, and georgette crepe appropriate. Pattern price 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

Exports Of Pulp and Paper

Considerable Increase Shown In First Half Of Current Year

For the first half of the current year, exports of pulp and paper were valued at \$97,159,580, as compared with \$94,104,081 in the corresponding six months of 1928, according to the monthly report of the Canadian Pulp and Paper Association. Woodpulp exports for the period amounted to \$21,470,505, and exports of paper to \$75,729,475, as compared with \$22,339,880, and exports of paper to \$73,764,201 respectively for the first half of 1928. Pulpwood exports have been smaller this year, the six months' shipments being valued at \$5,943,623, as compared with \$6,926,000.

Increasing Elevator Capacity

An Addition Of Over 25,000,000 Bushels To Be Provided This Year

An addition of over 25,000,000 bushels in the course of being provided to elevator capacity in Canada this year, the additions being principally in Ontario and at Vancouver and Halifax. The projects are: Prescott, 5,500,000; Kingston, 5,000,000; Sarnia, 2,000,000; Midland, 2,000,000; Collingwood, 2,000,000; Port Colborne, 2,000,000; Goderich, 1,000,000, and 1,000,000; Owen Sound, 2,000,000; Vancouver, 3,000,000 and 1,000,000, and Halifax, 1,000,000.

Its Quality Tells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Find Old Inscriptions

A fossil turtle, belonging to an unknown species, has been found by the Field Museum of Natural History. The shell of the turtle bears six Chinese inscriptions which are thought to be more than 4,000 years old. They are in the earliest of Chinese writing and correspond to the characters on the famous oracle bones of Hoonan.

The obstinate corns fall to resist Holloway's Corn Remover. Try it.

The Cross Of Snow

The famous cross of snow in the Holy Cross National Forest of Colorado is formed by two snow filled crevices on the side of the mountain. The cross is visible for miles.

The Red Rose Tea guarantee means what it says. If not satisfied return the unused part in the package and the grocer will refund your money.

SUNDAY SCHOOL LESSON

AUGUST 25

REBUILDING THE TEMPLE

Golden Text: "I was glad when they said unto me, let us go unto the house of Jehovah."—Psalm 122:1.
Lesson: Ezra 3.1 to 6.22; Psalm 124:1-12.
Devotional Reading: Psalm 122.

Explanations and Comments

The Erection Of The Altar Of Burnt Offerings, Ezra 3.1-3.—The journey from Babylon must have required many months. The first work undertaken in the homeland was the building of houses and the tiling of ground. But as early as the seventh month after their return the altar of burnt offerings was rebuilt and there the offerings were sacrificed according to the law of Moses. In the second month of the second year after the return a start was made with the rebuilding of the temple. Money was contributed to pay the masons and carpenters, and furnish food and drink and oil to the men of Sidon and Tyre who brought cedar trees from Lebanon to Joppa on the coast, whence they were transported to Jerusalem.

The Foundation Of The Temple Laid, Ezra 3.10, 11.—The temple was to the Jews what the Pyramids were to the Egyptians, the Parthenon to the Greeks, the Coliseum to the Romans, St. Peter's to the Latins—but it was more. It meant to the Jews what the flag means to you, what the Cross means to the Christians, what the trumpet, the Levites sounded the cymbals in praise of the Lord as had been done in the days of David, saying, "For life is good; for His lovingkindness endureth for ever toward Israel." This realization of the goodness and mercy of God runs through Psalms 106, 107, 118 and 136. There were probably

While the workmen laid the foundation, the priests in their official robes blew the trumpets, and the Levites sounded the cymbals in praise of the Lord as had been done in the days of David, saying, "For life is good; for His lovingkindness endureth for ever toward Israel." This realization of the goodness and mercy of God runs through Psalms 106, 107, 118 and 136. There were probably

two choirs singing alternately. "In the 118th Psalm was originally appropriated to this occasion, it is easy to see with what force the two choirs which must have replied, in strophe and antistrophe: 'Open to me the gates of righteousness.' This is the gate through which the righteous shall enter; or must have welcomed the foundation stone which, after all difficulty and opposition, had at last been raised on the angle of the rocky platform; or have uttered the formula which afterwards (Matthew 21:9), became proverbial for all such popular celebrations—'Hosanna! Save us.' Blessed be whosoever cometh in the name of the Eternal." Dean Stanley.

Keeping a Sound Body

If thou wouldn't preserve a sound body, use fasting and walking; if a healthful soul, fasting and praying. Walking exercises the body; praying exercises the soul; and fasting cleanses both.

Your food doesn't do you any good if you're tired

At the end of a day's work, relieve nervous tension before eating. Wigley's will refresh and tone you up—so that you're ready to enjoy your food.

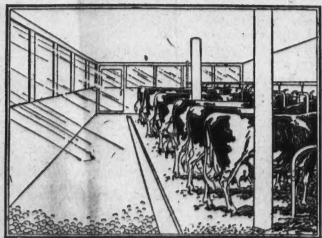

Then, after meals, Wigley's helps digestion, cleanses the teeth, removes traces of eating or smoking—sweetens the breath.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light last strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, day nurseries, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls—any length but in one width of 86 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 135 to 136 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

Distributors: JOHN A. CHANTLER & CO., LTD. 51 Wellington St. W. TORONTO, ONT.

U. S. CRITICISM OF REPARATIONS PUZZLES BRITAIN

London, Eng.—American newspaper criticism of Rt. Hon. Philip Snowden's attitude at the Hague reparations conference in connection with Britain's heavy financial sacrifices has surprised as much as it has mystified the British people, newspapers and politicians.

They find it difficult to reconcile the United States stand regarding war debts, which is very firm, to the criticism of the British Chancellor of the Exchequer and they suspect there must be a hidden motive.

It is suggested in some quarters that the real reason is to be found in the recent negotiations between Morgan Norman, Governor of the Bank of England, and American bankers, which was founded upon the presumed acceptance by the British Government of the entire Young plan. It is also suggested that Mr. Snowden is aware of this and that therefore his attitude is more adamant than ever.

Hints in American newspapers that Mr. Snowden's stand may make the Anglo-American negotiations on naval disarmament more difficult, has frankly puzzled British officials and the public, who are so strongly behind the chancellor that newspaper officers are being deluged with letters from readers of all political parties praising his attitude.

There is no doubt that if the new Labor Government went to the country tomorrow they would be returned by an overwhelming majority, and the only regret of some shrewd Labor politicians is that the Government is unable to take advantage of a situation that is not likely to arise again during the life of Ramsay MacDonald's cabinet. Even the most die-hard Tories are saying that Mr. Baldwin had adopted an attitude similar to Mr. Snowden's when negotiating the war debt settlement with the United States he would still be prime minister.

Not since the great Disraeli went to the congress at Vienna after the Russo-Turkish war and returned with "peace and honor" has there been such a spontaneous outburst of enthusiasm for a British statesman. This is making it all the more difficult for the British public to understand the American attitude, as revealed by the American press.

Minister Of Railways Steadily Recovering

Hon. C. A. Dunning Will Return To Ottawa At End Of August

Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, who is now resting at his farm in Saskatchewan, west of Yorkton, is not expected to return to the capital until the end of the month. He is steadily recovering from the effects of the operation he underwent at the end of the parliamentary session, and with the complete cessation from work he is now enjoying in the west expects to be restored to complete health and vigor in the near future.

Probing Status Of Women In Quebec

Special Commission Appointed To Study The Question

Quebec, Que.—The provincial cabinet, at a meeting held here, appointed a special commission to study the question of the legal status of women in the province of Quebec. The members of the commission will be Judge C. N. Dore, Chief Magistrate; P. Roy, and Joseph Sirio, notary, all of Quebec City, and Victor Morin, notary, of Montreal.

Sails For Home

Quebec, Que.—Sir Eric Geddes, a former minister of transport in a British wartime government and now chairman of Imperial Airways, Limited, sailed from Quebec on the "Empress of Australia," following a brief business visit to this country.

W. N. U. 1799

British Columbia Fire Situation Is Serious

Pacific Coast Province Shrouded In Pall Of Smoke

Vancouver, B.C.—With the whole of the southern interior of British Columbia shrouded in a pall of smoke from a hundred and fifty fires, the fire situation in this province is reported by forestry officials as very critical. All available unemployed men in Nelson and vicinity have been called to fight the outbreaks and additional men recruited in an effort to cope with the situation. So dense is the smoke at Nelson that the forestry airplanes are unable to leave the water on account of the poor visibility.

A serious situation exists at Tunnel, between Grand Forks and Nelson, in the boundary district, where fire fighters are doing their best to subdue the fire raging there, without the aid of water. Fire at Westbridge, also in the boundary district, is out of control. The Sheep Creek outbreak, on the international boundary, is reported under control.

The forest fire situation on the lower mainland and Vancouver Island remains extremely hazardous. Particularly serious are conditions in the vicinity of Campbell River, Vancouver Island, where fires are menacing large tracts of standing timber.

Chinese Leave Under Bond

Return To China For Trial On Opium Smuggling Charge

San Francisco.—Mr. and Mrs. Ying Kao and Sun Foon, former attaches of the Chinese consulate here, who are under Federal indictment for an alleged attempt to smuggle \$600,000 worth of opium into the United States, sailed for China on the liner "Shinyo Maru." They left under bond and with the formal permission of the United States government.

Washington.—Secretary Stimson said that the return of Mr. and Mrs. Ying Kao and Sun Foon, formerly connected with the Chinese Consulate at San Francisco, to China, had been the desire of the Chinese government, and that the prisoners had waived trial in the United States on charges of opium smuggling or complicity.

The government has secured assurances, he said, that the three would be prosecuted by the Chinese government.

Wants Alberta Coal But Price Prohibitive

Manager Of Winnipeg Hydro Finds Price Too High

Winnipeg, Man.—That the price asked for Alberta coal by dealers was forcing him to bring in to Winnipeg, American coal for the city steam heating plant, was the statement made by J. G. Glasco, manager of the Winnipeg Hydro. He declared it appeared likely that the entire coal supply would have to be brought from across the border.

"Canadian dealers are submitting tenders for Alberta coal at \$7.90 a ton, as compared with \$7.20 quoted for the American product," Mr. Glasco said, adding: "The tragedy is that the coal we want is in Alberta."

Japanese Officers Killed

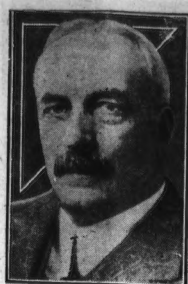

Were Making Preparations For Reception Of Graf Zeppelin

Tachikawa, Japan.—Six high army officers including Major General Ogawa, of the Imperial General staff, were killed when a military aeroplane crashed at Kasumigaura while making preparations for the world flight of the dirigible Graf Zeppelin, the seventh occupant of the plane, also an army officer, is dying. The plane was a huge bomber.

Triple Drowning Accident

Edmonton, Alberta.—Word of a triple drowning tragedy at a picnic at Hanna Beach, on Buffalo Lake, near Bolha, Alberta, was received at Edmonton. The victims were Mary Horton, 15; Francis Horton, 14; and Edna Payne, 14. The three girls went to their death when they stepped into a deep hole while taking. The Horton girls were sisters.

HEADS BRITISH MEDICAL ASSOCIATION

Dr. Harvey Smith, native of Winnipeg, who has been formally elected president of the British Medical Association. The Association will meet at Winnipeg next year.

Excellent Wheat Yields Reported In Alberta

European Settlers In Alberta Will Realize Dream Of Wealth

Winnipeg.—A number of European immigrants who came to Canada with their dreams of wealth, will have their dreams fulfilled, according to N. M. Ostzyuk, of the Dominion Colonization Company, at Edmonton, who declared here that excellent wheat yields are reported in different parts of Alberta, where the immigrants have taken farms.

At Fetherah, 30 miles north of Edmonton, farmers are reaping from 35 to 50 bushels per acre off new broken land. At Roycroft, in the Peace River country, where Mr. Ostzyuk has a 400 acre farm, the yield is 40 bushels. Leduc, Alberta, reports that the yield in that district will be from 40 to 50 bushels per acre.

Find Missing Pilot

C. R. Troup Of Inter-Provincial Airways Was Lost Nine Days

Montreal.—Pilot C. R. Troup, of the Inter-provincial Airways, who had been missing nine days, was discovered by one of the six rescue planes that had been searching for him, 2,600 miles north of Seven Islands, Que.

He had been forced down by engine trouble. Troup was well and suffered no ill-effects from his experience. He was flown back to Seven Islands.

Advise Return To Bognor

Better For King George Than Sandringham Say Doctors

London, England.—The Daily News says that King George's doctors had advised him to return to the seaside at Bognor for further recuperation instead of going to Sandringham, His Majesty's favorite country estate. The court encouraged by the improvement in the King's health since his second operation, had planned to go shortly to Sandringham.

The Daily News added that it was feared the King might be tempted to exceed his strength at Sandringham by indulging in grouse shooting of which he is very fond.

This danger would be avoided if he could be persuaded to remain in London for a short time and then go to Bognor for the next few months.

He would stay at Craigwell House, where he was moved from London after his grave illness last winter.

No Change Made

Normal School Course In Saskatchewan Not Lengthened

Regina.—No change has been made in the length of the Normal school course in Saskatchewan according to an official statement issued by the department of education.

From inquiries that are being received at the department, it appears that the impression has got abroad that the normal school course has been lengthened to two years. This is not the case.

The sessions opening on September 4, will continue until June 8, 1930, and students who complete the course satisfactorily will receive interim, second or first class certificates, according to their academic standing.

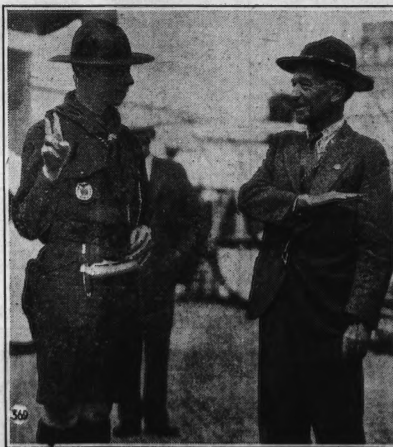

Building Bigger Liner

Vessel Replacing Oceanic Will Challenge Speed Of Bremen

London, England.—A Belfast dispatch to the Daily News, says that the keel of the 60,000 ton White Star steamship "Oceanic," to have been the greatest liner of the world, has been completely demolished and plans are being prepared for a new vessel to take up the speed challenge of the new North German Lloyd "Bremen."

The keel was laid last October and was nearly completed when work was ordered stopped on July 23. It was understood that a new ship, to be even greater in length than the 1,000-odd feet originally proposed for the "Oceanic" was to be built.

INDIAN SIGNS FOR SCOUTS

Wm. Tomkins, member of the Boy Scouts Association, is here shown demonstrating to a boy scout on board Canadian Pacific steamship "Duchess of York," the Indian sign for "good" while the scout is making the sign for "wolf" which means "scout." Mr. Tomkins has been specially commissioned by Chief Scout Baden-Powell, to instruct boy scouts in the Indian sign language and was photographed on his way to attend the World Scout Jamboree held at Birkenhead, England, last two weeks of August. About 350 United States Boy Scouts travelled on the "Duchess of York," and in all some fifty thousand scouts were present from forty countries at the jamboree in honor of the 21st anniversary of the founding of the movement.

THOMAS SEEKS OPENINGS HERE FOR UNEMPLOYED

London, Eng.—When Rt. Hon. J. H. Thomas, Lord Privy Seal and unofficial Minister of Employment, reaches Ottawa, he will emphasize to the Canadian Government that more openings for British labor could be created in the Dominion if British capital and enterprise were utilized more fully to develop Canadian industries, according to the Manchester Guardian.

The newspaper declares that Mr. Thomas wants to carry out the Board of Trade suggestion that British industry might set up manufacturing concerns in Canada, a suggestion that is sometimes referred to as "putting the other leg in the Dominion."

The Guardian also says that Mr. Thomas may stipulate that if a considerable amount of British capital is to be invested in Canadian public works, such as the construction of roads, British labor must be employed. And if the Canadian reply to this is a question as to the fate of the British workers when the roads are completed, Mr. Thomas will answer that in view of the rapid expansion of Canadian industries there would be a reasonable prospect of absorbing such immigrants permanently.

The Guardian, however, thinks there will be no surprise if Mr. Thomas accomplishes less than he hopes.

Pacific Ports Lead In Grain Exports

Taking Trade From U.S. Atlantic Ports, Not Montreal

Vancouver, B.C.—Vancouver has allied Pacific coast ports lead Canada in export of Canadian wheat, according to totals furnished by the Vancouver Merchants' Exchange and computed from official figures compiled by the board of grain commissioners.

Vancouver, New Westminster, Prince Rupert and Victoria shipped a total of 97,000,000 bushels in the 1928-29 season or 26 per cent. of the total Canadian export, while Montreal, Quebec, Halifax and other Atlantic ports combined exports accounted for 92,000,000 bushels of Canadian wheat.

From these figures it is deduced that Vancouver is not cutting in on the trade of Montreal, but is shipping at the expense of United States Atlantic ports, which shipped 67 per cent. of the total in 1927-28 and have since declined to 46 per cent.

The Merchants' Exchange figures do not take into consideration grains other than wheat and shipments of United States wheat through Canadian ports are omitted.

Charged With Arson

Regina Youth Says He Set Fire To Parliament Buildings

Regina, Sask.—Donald Johnston, 22 years old, who confessed to having set fire to the dome of the parliament buildings, has been committed to stand trial on a charge of arson. A confession written by accused was introduced as evidence, in which accused stated that he, with six other men and one woman, had formed an organization and had raised \$11,000 for the purpose of starting a newspaper, "The Nationalist," which was to oppose the Gardiner Government, and that the burning of the parliament buildings was to start activities of the organization. The man who held the \$11,000, however, had disappeared together with the money. Magistrate Hefferman refused to allow bail, stating that he thought the state of the young man's mind should be looked into.

Credit For Bank Of England

New York.—The Bank of England, its store of gold drained by French purchases to the lowest point of the year, has made an arrangement whereby a credit of about \$250,000,000 can be established here at a few hours' notice.

Canada has one motor vehicle for every nine persons of population. A recent estimate places the aggregate number of motor vehicles in the Dominion at 1,076,819. Only three countries exceed Canada in heavier density of motor cars, namely, United States, with one to every 5.11 persons; Hawaiian Islands 7.9 persons, and New Zealand 5.0 persons.

The New England conscience got busy recently in a small town in Massachusetts, when a resident mailed back anonymously to the matre d'hotel of the Royal York, Toronto, a package of spoons, serviettes and dining room "nurdles" borrowed some time previously. The writer, in returning the articles to Monsieur Maillard, the matre, said: "My conscience has been bothering me a great deal since a I have been unable to keep them any longer."

The Stony Indians, Alberta, cannot be said to be a "vanishing race," for while the portion of the tribe living on the No. 6 deer reserve was making a two-week trek to attend the annual Indian pow-wow at Banff, four babies were born. Mothers and children are all healthy and well.

Last spring a man came into the C. P. R. ticket office on Sparks street, Ottawa, for a ticket to Leonard where he had a job. He was five cents shy on his fare, but the railway gave him a ticket anyway. The other day a man in overalls walked into the Sparks street office and said: "I owe you five cents on a ticket; here it is."

Hon. Chas. Stewart, Minister of the Interior, who has been flying over the Rocky Mountains range, announced at Banff that the buffalo herd there will be augmented shortly by addition of animals specially selected from the herds at Wainwright and Elk Island.

Canadians are the world's greatest butter eaters. A recent compilation made by the Canadian Government Bureau of Statistics shows that the total consumption of butter in the Dominion last year was 230,000,000 pounds or a per capita consumption for the year of 29.31 pounds, an increase of nearly half a pound per head of population compared with 1927.

J. M. R. Fairbairn, chief engineer, Canadian Pacific Railway, and Dr. F. A. Gaby, chief engineer, Ontario Hydro-Electric Commission, have been selected as Canadian delegates to the Tokyo sectional-session of the World's Power Conference to be held in Japan in October. They were nominated at a meeting of Canada's executive conference committee.

The steady increase in the use of electric power per capita in Canada is shown by a comparison of the figures for 1920 and 1927. During this period the amount of power used per 100 of population increased from 41 to 63 horse-power, or the use of power per inhabitant increased over 46 per cent.

As an indication of the increasing popularity of Nova Scotia as a tourist resort, the Lord Nelson Hotel, Pictou, on July 15 set three records for meal service with 245 persons sitting down to breakfast, 253 for luncheon, and 270 for dinner.

Stony Plain and District.

IT PAYS TO PAY CASH.

Mrs Klapper, of Westlock, is paying a visit with her daughter Mrs H Heichen, at Loga.

"Bill" Bonser, the well-known authority on hockey and other sports, arrived back in Stony Plain night, after an absence of three years, spent in various parts of the world.

The officers and members of the local Moose Lodge motored to Edmonton last evening, for instruction work at a degree meeting given by the Edmonton lodge. The next meeting of Stony Plain lodge will be held Wednesday, Aug. 29th.

Another shipment of Chevrolet arrived this week for Sommerfield & Mayer.

The Editor will appreciate it if the pupils of grade eight will hand in their marks on the Departmental exams. To the Sun office, as we have no other means of obtaining these.

General sympathy is expressed for Mr and Mrs G Hicks, who had four of their children burned to death when their home across the river was destroyed by fire last Friday evening. A benefit concert and dance is being arranged, to be held in Stony Plain Mon. Sept. 2.

Mr John Peppernich, who had his leg broken in the car accident east of town the night of Aug. 10th, is resting easy in the Edmonton hospital to where he was taken.

A gang of 100 men are now in Stony, replacing the rails on the main line of the C. N. railway.

Grain cutting is now general in this district; the recent showers not having caused much stoppage.

Farmers having chickens to sell should bring these to P Henkel, phone 58.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year.

United Church Notes.

On Sunday, Aug. 11, in the absence of the Pastor, who spoke at a large gathering at Pine Ridge, Rev Reppert took charge of the service at Holborn, which was also well attended.

Now that the holiday season is drawing to a close, we are looking for new interest at all points.

Church Services

Service at United church Sunday evening at 7:30; Rev G A Sauder.

Services will be held in St Philip's Church at 9 a.m. on Sunday, Sept. 1.

Card of Thanks.

Mr and Mrs Geo Liebert and family wish to thank all their friends and neighbors for their assistance and sympathy, also the beautiful floral offerings during our recent sad bereavement.

Lost, Black Grayling, about 1500 pounds; gray stocking on right hind leg, sore on left ribs; no brand; last seen Aug. 18. Reward on return to F Strasse. 72np

Edmonton Beach.

A good-sized crowd was present Sunday evening at the roast and concert given. The midnight frolic which followed was also well patronised.

The big camp of Boy Scouts on the Rotary grounds broke up Saturday afternoon, and the boys returned to their homes in the City.

On a Narrow Grade.

On Thursday evening, shortly before 6 o'clock, Mr Philip Litzberger, the well known farmer, was driving his big Buick Sedan on the South road, near St Matthew school house No. 1. While attempting to pass another car on a narrow grade, Mr Litzberger's sedan skidded into the ditch, and turned turtle. The driver was alone in the car and escaped without injury. A volunteer crew went out from Stony to help right the car and pull it back onto the trail, in which they were successful.

Loyal Order of Moose.

On Aug. 15th 24 members took part in instituting the new Lodge No. 1556 in Stony Plain. Supervisor AJ Ingram assisted by Edmonton Lodge 772 degree team had charge of the ceremony. Following are the officers—Past Dictator, Roy Alton Dictator, Carl Propp Vice Dictator, Geo J Bryan Prelate, Clarence J Meeds Sec., Carl Fischer.

Treas., Jacob Becker Trustees, E H Baron, Dr R A Walton, G J Gannon Inner Guard, Chris Pitzler Outer Guard, Ernst Pitzler

Fight Noxious Weeds.

The season has arrived in this municipality, as elsewhere, when the worst weed the farmer has to fight (perennial sow thistle) is in bloom, and, if allowed to blow, will spread a crop of seeds and more work for next year.

Also farmers may disagree on special methods of eradication, they will all agree that a weed campaign, to be effective, must be taken up by every farmer, and must be followed up into uncultivated land and along roadsides.

The fact that a farmer has a patch of sow thistle on his farm should not discourage him, nor should he try to keep it a secret. He should try to learn the best methods of fighting the weed and should welcome any advice from his neighbors or the weed inspector in getting rid of it.

"If thistle seed is allowed to blow the farmer is up against a well-nigh impossible task in fighting it. A sow thistle blossom is everybody's business, and the man who stops and destroys it is doing the country a good turn."

Every farmer should see that no thistle is bound up with one grain in the bundle. The greatest mistake a farmer can make is to allow this weed to go thru a thrashing rig. An inspector should see that these bundles are burned.

Thrashing will be early this year and farmers will have an opportunity to work the land before freeze up. Fall cultivation cannot be overestimated in its effect on weeds. The good farmer will get on his land as soon as he can get his crop off, and either shallow plow or disc in preparation for next year's crop, or his next year's summer fallow.

At the Bar

Magistrate Williams had another busy afternoon Tuesday. The assault case of Kube v Roloff, in which Magistrate McLeod had waived jurisdiction, was adjourned to the 27th.

A Tomahawk immigrant was fined \$300 for being in possession of an illicit still.

The Bigelow case, a V & H T Act affair, was concluded. Defendant was assessed \$15 fine and \$29.85 costs. Mr Bigelow, who is at present in Delia, was represented by counsel.

More evidence was taken in the Geo Meiner case. His counsel, Mr White of Holden, asked for an adjournment to the 27th, and this was granted.

Spruce Grove News

Mr Ph Schram, who has been building log houses for the Indians on the Kapasiwin R.R. is back home now, looking after the crop on his farm.

Mr Conrad Fuhr returned home on Saturday from Wembley.

The driveway to the Northern elevator, blown down on July 2d, has been rebuilt.

Young Mr Schram, who had his right shoulder injured in a recent automobile accident, is recovering the use of it again.

Saturday's Journal carried an advt. for a teacher for the primary room at the local school. Michael S.D. trustees also, want a teacher.

Stealing Car Plates

Early this morning of Friday last a jitney stopped near the farm gate of Mr L Javorosky, east of town, and one of the party sneaked over to Louie's garage, removed the plates from the car and attached a pair of plates No. 266. They also took a blanket and a cushion. It is believed the car the plate changers were traveling in was stolen.

Ford

The Finest Car Made at a Low Price.

Back of the new Ford are manufacturing and production methods, as unusual as the car itself. Without these it would be impossible to give you the value that is in the New Ford. Because of them it is unquestionably the best motor car that can be made at a low price without sacrificing quality anywhere on it.

We make immediate deliveries on all models.

Stony Plain Motors.

ENDERS & BARON, Stony Plain.

The 1930 McLAUGHLIN-BUICK

The Greatest Success in all McLaughlin-Buick history!

NEVER, in McLaughlin-Buick's long successful history, has any new model been accorded such spontaneous and enthusiastic acclaim as McLaughlin-Buick for 1930. From every province, from East and West, are already coming reports of the most amazing volume of sales ever recorded for any McLaughlin-Buick within its first two weeks. Hundreds of buyers did not even wait for demonstrations, but placed their orders unconditionally, upon their first inspection of this "greatest McLaughlin-Buick of them all." It was inevitable that this New 1930 McLaughlin-Buick . . . three great new series, larger, more powerful, more beautiful, more luxurious than ever . . . should win an instant and exceptional success. See it for yourself at our showrooms.
